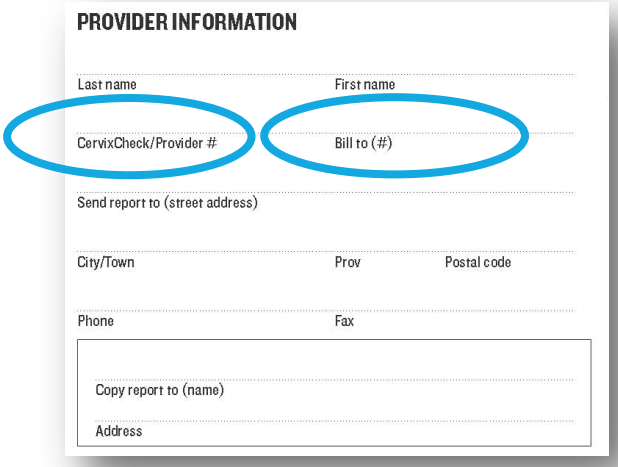
CervixCheck Provider Number Request Form

Registered Nurses (RNs), Physician Assistants (PA), and Clinical Assistants (CL.A) should obtain a CervixCheck Provider Number at such point cervical cancer screening becomes part of their practice. The CervixCheck Provider Number identifies the specimen taker on the cytology requisition form, and links them to the cervical cancer screening test (i.e. Pap test) and any subsequent follow-up.

RNs, PAs and CL.As should identify themselves with their CervixCheck Provider Number on the cervical cytology request form in the "CervixCheck/Provider #" field. The billing number of the physician or nurse practitioner who may be overseeing these Pap tests can be captured in the "Bill to (#)" field.

DESIGNATION	CERVIXCHECK/PROVIDER #:	BILL TO (#):
Clinical Assistant	22### (CervixCheck provider #)	Physician or NP billing #
Registered Nurse	N### (CervixCheck provider #)	Physician or NP billing #
Physician Assistant	72### (CervixCheck provider #)	Physician or NP billing #



Important Information

- ✓ All RNs, PAs and CL.As should ensure that their cytology lab captures their CervixCheck Provider Number with each Pap test report that is submitted to the CervixCheck registry.
- ✓ Registered nurses (extended practice), nurse practitioners and physicians do not need a CervixCheck Provider Number. Rather, they can record their billing number as assigned by Manitoba Health in the "Bill to (#)" field of the cytology requisition form.
- ✓ All clinicians shall refer to the CervixCheck Screening Guidelines at GetCheckedManitoba.ca to facilitate the required management of all cervical cytology follow-up in Manitoba.

To obtain a CervixCheck Provider Number, complete the fields on the reverse side of this page and fax or email to CervixCheck. Your CervixCheck Provider Number will be emailed to you.
